"Harry Tracy the Outlaw" will be presented at Fry's opera house next Monday night and several of the store windows on Lemon street have given up space to advertise the affair with lithographs which represent a masked outlaw pointing a revolver at a woman in pink silk dress and low-necked shoes. At the same time the outlaw is h-a-s-s-i-n-g between his tight closed store teeth dire disaster to her and her house in case she fails to disgorge the family d-i-a-m-o-n-d-s supposed to be hidden away in her double-breasted socks. The show is of course a highly moral affair and will prove interesting and instructive to little children whose parents desire them to develop into real ornaments, a la bowery. Young men who have not yet decided what to do with their lives might also get, by personal depiction in one night more than they could obtain from the study in still life of such characters in a dozen yellow novels.

A HEALTH POLICY

The system is, from natural causes, debilitated or run-down both in the spring and fall. The seasons' changes are always a tax on the human organism. The blood becomes impure in the spring and vitality lags in the fall. A little care, a little assistance, and nature will do the rest, as it is always trying to maintain health. Frequently the weakest organ will show the most disorder, and this often leads to wrong treatment. For the debilitated conditions of spring or fall, or any other time, for that matter, the right thing to do is to build up the whole system. It is not your stomach, or liver, or nerves alone that cause the trouble; you are weakened all over and must have renewed strength and vitality. These and you are feeling and realizing your nervous system. You cannot do this without getting well, and you cannot take Dr. Harter's Iron Tonic without doing it.

When you use Dr. Harter's Iron Tonic, you are helping to renew the vigor of every fiber of your body. You are cleansing and enriching your blood; you are strengthening your stomach and increasing the digestive fluids; you are building up and renewing the activity of your kidneys and liver; and you are feeding and revitalizing your nervous system. You cannot do this without getting well, and you cannot take Dr. Harter's Iron Tonic without doing it.

CHICAGO, ILL., Nov. 26, 1901.
The Dr. Harter Medicine Co., Dayton, O. GENLAKES:—I unhesitatingly recommend Dr. Harter's Iron Tonic, as I firmly believe it is the best tonic on the market to-day. Every spring and fall my system seems to be in need of a tonic, and for the past three years I have taken a bottle of your tonic twice a year.

The firemen of the west end and their friends had a genuine blow out at the reel house on Kirkland street last Friday evening, when a banquet, decided on only the night before, was given by the company. The affair was enlivened by the presence of the Citizens Band, which discoursed music throughout the evening. Light refreshments, such as sandwiches, queen olives, cheese, crackers, salads, etc., with er—soda water on the side, made up the menu. There were some fifty at table. Everything passed off pleasantly and those who were invited voted the west end firemen royal entertainers, and expressed themselves well pleased with the amusement furnished them.

The honorable John P. Wall of Putnam Hall was a lay delegate to the St. Johns River Baptist association at Spring Garden, Volusia county, last week. During the session and while the temperance resolutions were up for discussion Mr. Wall had something to say of his lately deceased dispensary measure. His argument, from a religious standpoint, was certainly a "daisy." Volusia is a dry county, and he sought to show that under a dispensary system, with a county dispensary to furnish liquor to the people who wanted it, money which now went to Palatka could be kept at home. He had nothing particular to say about the other advantages to be derived from dispensary liquor. So long as "brother" Wall confines his temperance (?) propaganda to efforts to convert the Baptist church, it's all right. The News is not so alarmed that the church will go wrong as it is for the democratic party.

St. Johns River Association. Rev. Wm. Stones was a delegate last week to the St. Johns River Baptist Association held with Spring Garden church near DeLeon Springs. Not quite so large a number of delegates were present as usual, but all report a good time. Dr. J. F. Forbes of Stetson university was present and delivered a fine address on education. Rev. J. E. Oates, formerly pastor of the Baptist Church here, but now at DeLand, was present. He represented the interests of the Baptist Young Peoples Unions. One of the visitors, the Rev. T. J. Sparkman of DeLand, was present and preached an excellent sermon. Reports on temperance, missions, Sunday schools, etc., were discussed. The association was bountifully entertained by the good people of Spring Garden and joined heartily in thanking them for their hospitality.

The Game Last Friday. It was not a case of "Greek meet Greek" last Friday afternoon when the professional men and bankers vs. merchants played a game of base ball at the park, but the setto was the source of more than ordinary amusement, as all will vouch for who availed themselves of the rare opportunity to attend. At the beginning of the game it looked as though the contest would be a close one, the score at the close of the first inning being 3 to 1 in favor of the merchants. But the "rooters" for the merchants gave up all their fondest anticipations in the second inning when the opposing side, by swift playing and two-bagger hits, shoved ten men across the home plate. Only five innings were played, and the result was a victory for the professional and banker's team by a score of 20 to 11.

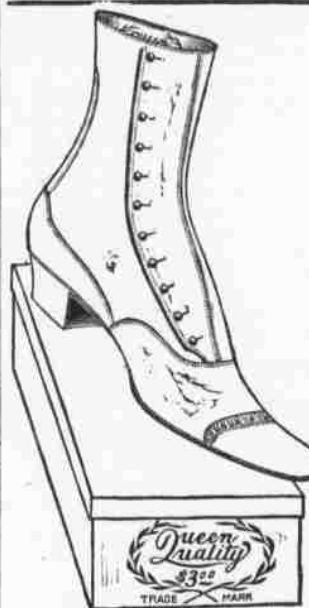

The proceeds of the game amounted to \$25.55, which sum went to benefit the public library. Promptly soothing and healing; cuts, bites, insect bites, old ulcers, etc., succumb to Ocklawaha. Putnam Pharmacy. Oct 18-1m
